

Amazing multi talented instrumentalist Mezerg is a pioneer of modern music technology and one of the most creative musicians you're likely to come across. Hands and feet linked to his instrument, he makes electronic music from unexpected elements, with rhythms that ranged from funk to acid techno, improvising with keyboards, effects pedals and the theremin which has become emblematic of his project. Mezerg merges the electronic with the acoustic to create an impressive and unique live performance that you can't take your eyes off. Somewhere between house music and an acoustic performance, this nightlife one-man band pays homage to both the jazz bars and the nightclubs of this world with a whirlwind of energy and irresistible sounds.

Mezerg s'accroche pieds et mains liés à ses instruments, tel un sémaphore il nous envoie les signaux visuels et sonores d'une techno électro acoustique et nous embarque pour une croisière énergisante aux accents Balkaniques... Préparez vous à une explosion de touches ! Ca va briser des nuques et taper du pied !!!
